Dear Raymond hoser Hi I've seen your defamation post. I have spoken to a friend who works for Qld police who's told me what protocol I need to follow for this matter. No1 I only called you once accidentally as you have no messaging option you also turned the commenting off after making a slanderous post towards people you don't like and don't even know. No12. That was not me calling you back nor did I call you at any other time and have the proof of that so suggest you pull your defamation post down before my mothers lawyer has to contact you. My mother and I will not allow you to get away with this matter as this is not acceptable behaviour. You obviously had a lot of people troll you after todays posts that is disgusting on your behalf. Now I didn't say anything to you that isn't true you did make up lies about tongs and other various animal abuse claims like you did to Steve Irwin when you pull fangs out of snakes and still handle them with tongs. You also sold tongs for many years and prob still do for all I know. You have no right to post that and it's illegal as my friend told me tonight. And said definitely follow up on it and make a statement with your defamation publication of my face and a recording that's not even me. I can tell you your a idiot I'm aloud free country you rang me harassing me so I suggest you pull your post down tonight before the police pay you a visit tomorrow and my lawyer contacts you also. You have until 8 am tomorrow to remove it amd my name or I promise you my mother won't allow you to lie and say I rang you when it wasn't even me. Calling me a fat slob etc is also disgusting and illegal so I suggest you do the right thing. I said that on my own accord but will message other you've lied about on social media to have our lawyers sort you out for your illegal behaviour and defamation and slander if needed. 8 am tomorrow or I will make a statement for slander and harrasment on fb. Goodluck in the future and please stop defanging poor snakes. Please.

Dear madam, the second call followed call 1 and so I assumed it was you. Based on your reply, you may have something in that claim it was not you. Unfortunately your first call and Facebook posts have in effect convicted you of the bad deeds, making the imputations of what I published as substantially true and legally allowed. Your claims against me are false. Other than doubt about call 2, my claims against you

are correct and I stand by them. As it is you who have committed offences, including, stalking and menace by phone, and not I, I stand my ground. Please do not troll me in any way in future. Should you have need to communicate with me, do so through a lawyer. If you issue proceedings against me I will sue you in relation to your false claims including that I defang snakes, which is a cruel and barbaric practice and highly illegal, noting I have a 50 year history of being at the forefront of animal welfare. My address for service is in the Electoral Roll. I have allowed you to post on my public pages and to message me repeatedly, but the gig is up. Those posts will be removed. Do not reinstate them or anything else, including by proxy. No more please! Thank You Raymond Hoser The Snakeman

Good morning. I've spoken with the police twice this morning and they have recommended you pull down your slander and harrasment especially as you have given out my number and address. They are not happy at all and don't have time for Facebook bullies like you. Get over yourself I accidently pocket dialed you. You are the one calling picket dials back like a weirdo not me. Tony Harrison never asked me to call you more lies and defamation. You reckon you can tell you called private or not then you clearly know it's not me but still saying it is. I am a cancer patient who's just had major surgery you've made me vomit from stress from the slander and defamation and lies that I've hurt myself and need to go too hospital. I was sick all night from your harrasment and false information about me. I received over 100 no called id calls overnight from you and your bully crew so I suggest the post is taken off the internet as you agreed to take it didn't last night. You called me how am I a pest. I'm being bullied because of your defamation and the police have asked me to ask you to take it down apologise for calling you a fukwit on the phone when you were ringing me !! Now they suggest it is pulled down now or they will be involved. You can not give out my address or phone number they have said nor can you say that was me in the call and the slander saying i was made by tony and all the other lies. My mum will sue you for everything you own and we will donate it to breast cancer research if you don't pull it down now. You said last night you would pull the post down. Now leave me alone and remove the post you have until 9 am. Btw I run australia largest support group for cancer and your harrasment lies and bullying you giving out my number etc is affecting the cancer ladies I sponser who need me in the middle of the night. The fact you are affecting cancer patients you really need help. This isn't a threat this isn't local police officers asking you to do the right thing and pull it down before you are made too and pay me for the damages. This isn't okay you are sick and need help. Can you please take it down and never talk about me again or I will take everything you own I'm not joking you think you are above the law and if I need to be the person to teach you that you are a bully bullying making up

lies about a cancer patient. It's known you remove the venom Sacks from your snakes how otherwise can small children safely pat them ?? Why you are doing this I don't know but the fact you remove any proof you know that's not me and clearly you can hear it's not. You need help you have until 9 am or my lawyer and the police will be taking this matter seriously as it is illegal and harassment and false information it's what your creative mind thinks happened not what actually happened. Please go see a doctor please you need help and I hope you seek it. 9 am Qld time I will be back at the station they want to see it gone Regards Renee
